About Me

I'm curious and professional, specialized in software development. I'm proactive and a fast learner of new work methodologies, and I really enjoy staying up to date with technological advancements and innovations in the IT field.

Enrico Calabrese

Software developer

Professional Experience

2021 - 2025 | IMPRESOFT ENGAGE

Software developer

I worked as a software developer on management systems, focusing on SugarCRM. My main responsibilities were in backend development, using technologies such as PHP, JavaScript, MySQL, and Python.

Education and Training

2015 - 2020 | ISTITUTO TECNICO INDUSTRIALE STATALE ALESSANDRO ROSSI - VICENZA, VENETO

High school diploma in Computer Science and Telecommunications

2025 | COURSERA COURSES IN AI AND CYBERSECURITY

- Php – Advanced
- Bash – Advanced
- JavaScript – Advanced
- Java – Intermediate
- Dart – Intermediate
- C# – Intermediate
- C++ – Intermediate
- C – Intermediate

Web Development:
- HTML – Intermediate
- CSS – Intermediate

Database:
- SQL – Advanced
- Oracle – Intermediate

Additionally, on a personal level, I develop software and integrations based on Artificial Intelligence (AI) and automatitions that interact with instant messaging platforms through API integration.

Interpersonal and Organizational Skills

Interpersonal skills: Strong collaboration and communication skills, developed through sports, music, and both online and board cooperative activities where effective coordination with others is essential to achieve common goal.

Organizational skills: Consistent training in both individual and team sports (athletics, swimming, and gym) requiring commitment, time management, and planning. Problem-solving and stress management skills, further developed through strategic coordination in group activities such as cooperative digital and board games.
